INDEPENDENT AUDITORS' REPORT

Board of Directors
Rowland Water District
Rowland Heights, California

Report on the Financial Statements

We have audited the accompanying financial statements of the Rowland Water District (District), which comprise the balance sheet as of June 30, 2020, and the related statement of revenues, expenses and changes in net position and cash flows for the fiscal year then ended, and the related notes to the financial statements, which collectively comprise the District's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District as of June 30, 2020, and the respective changes in financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, Schedule of the District's Proportionate Share of the Net Pension Liability, Schedule of the District's Contributions to the Defined Benefit Pension Plan, Schedule of Changes in the District's Net OPEB Liability and Related Ratios, Schedule of Contributions – Other Post-Employment Benefits (OPEB) Plan, and OPEB Plan – Schedule of Annual Money-Weighted Rate of Return on Investments be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements as a whole. The Schedule of Other Operating Expenses and Schedule of General and Administrative Expenses are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Prior-Year Comparative Information

The financial statements include partial prior-year comparative information. Such information does not include sufficient detail to constitute a presentation in accordance with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2019, from which such partial information was derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a separate report dated February 26, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

ROWLAND WATER DISTRICT

Management's Discussion and Analysis (Unaudited)

For the Years Ended June 30, 2020 and 2019

Management's Discussion and Analysis (MD&A) offers readers of Rowland Water District's financial statements a narrative overview of the District's financial activities for the year ended June 30, 2020. This MD&A presents financial highlights, an overview of the accompanying financial statements, an analysis of net position and results of operations, a current-to prior year analysis, a discussion on restrictions, commitments and limitations, and a discussion of significant activity involving capital assets and long-term debt. Please read in conjunction with the financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- In fiscal year 2020, the District's net position increased 5.68%, or \$3,568,294 from the prior year's net position of \$63,129,330 to \$66,715,624, as a result of the year's operations.
- In fiscal year 2020, operating revenues increased by 9.41%, or \$2,268,172 from \$24,083,354 to \$26,351,526, from the prior year, primarily due to increases in residential and business water sales as well as increases in water service charges, new service connections and reimbursements.
- In fiscal year 2020, operating expenses before depreciation expense increased by 7.93% or \$1,425,467 from \$17,969,680 to \$19,395,147, from the prior year, primarily due to increases in costs for source of supply, transmission and distribution, and general and administrative expenses.

REQUIRED FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The Balance Sheet, Statement of Revenues, Expenses and Changes in Net Position and Statement of Cash Flows provide information about the activities and performance of the District using accounting methods similar to those used by private sector companies.

The Balance Sheet includes all of the District's investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing a rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenue and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine if the District has successfully recovered all of its costs through its rates and other charges. This statement can also be used to evaluate profitability and credit worthiness. The final required financial statement is the Statement of Cash Flows, which provides information about the District's cash receipts and cash payments during the reporting period. The Statement of Cash Flows reports cash receipts, cash payments and net changes in cash resulting from operations, investing, non-capital financing, and capital and related financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period.

ROWLAND WATER DISTRICT

Management's Discussion and Analysis (Unaudited)

For the Years Ended June 30, 2020 and 2019

FINANCIAL ANALYSIS OF THE DISTRICT

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of this year's activities?" The Balance Sheet and the Statement of Revenues, Expenses and Changes in Net Position report information about the District in a way that helps answer this question.

These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting method used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the District's net position and changes in them. You can think of the District's net position – the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources – as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, zoning and new or changed government legislation.

Condensed Balance Sheets

	<u>June 30, 2020</u>	<u>June 30, 2019</u>	<u>Change</u>
Assets:			
Current assets	\$ 16,334,341	\$ 14,307,306	\$ 2,027,035
Non-current assets	34,179,027	33,826,931	352,096
Capital assets, net	63,768,564	60,958,883	2,809,681
Total assets	<u>114,281,932</u>	<u>109,093,120</u>	<u>5,188,812</u>
Deferred outflows of resources	<u>4,818,265</u>	<u>4,863,849</u>	<u>(45,584)</u>
Total assets and deferred outflows of resources	<u>\$ 119,100,197</u>	<u>\$ 113,956,969</u>	<u>\$ 5,143,228</u>
Liabilities:			
Current liabilities	\$ 7,981,067	\$ 5,269,515	\$ 2,711,552
Non-current liabilities	42,661,165	44,222,170	(1,561,005)
Total liabilities	<u>50,642,232</u>	<u>49,491,685</u>	<u>1,150,547</u>
Deferred inflows of resources	<u>1,742,341</u>	<u>1,335,954</u>	<u>406,387</u>
Net position:			
Net investment in capital assets	32,342,768	28,331,863	4,010,905
Unrestricted	34,372,856	34,797,467	(424,611)
Total net position	<u>66,715,624</u>	<u>63,129,330</u>	<u>3,586,294</u>
Total liabilities, deferred outflows of resources and net position	<u>\$ 119,100,197</u>	<u>\$ 113,956,969</u>	<u>\$ 5,143,228</u>

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources of the District exceeded liabilities and deferred inflows of resources by \$66,715,624 as of June 30, 2020.

ROWLAND WATER DISTRICT

Management's Discussion and Analysis (Unaudited)

For the Years Ended June 30, 2020 and 2019

FINANCIAL ANALYSIS OF THE DISTRICT (continued)

Condensed Balance Sheets (continued)

By far the largest portion of the District's net position (48% as of June 30, 2020) reflects the District's investment in capital assets (net of accumulated depreciation) less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its customers; consequently, these assets are not available for future spending.

At the end of year 2020, the District showed a positive balance in its unrestricted net position of \$34,372,856 which may be utilized in future years.

Condensed Statements of Revenues, Expenses, and Changes in Net Position

	<u>June 30, 2020</u>	<u>June 30, 2019</u>	<u>Change</u>
Operating revenues	\$ 26,351,526	\$ 24,083,354	\$ 2,268,172
Operating expenses	<u>(19,395,147)</u>	<u>(17,969,680)</u>	<u>(1,425,467)</u>
Operating income before depreciation	6,956,379	6,113,674	842,705

Operating income	4,151,160	3,378,195	772,965
Non-operating revenues(expenses), net	<u>(564,866)</u>	<u>349,852</u>	<u>(914,718)</u>
Change in net position	3,586,294	3,728,047	(141,753)
Net position:			
Beginning of year	<u>63,129,330</u>	<u>59,401,283</u>	<u>3,728,047</u>
End of year	<u>\$ 66,715,624</u>	<u>\$ 63,129,330</u>	<u>\$ 3,586,294</u>

The statement of revenues, expenses and changes in net position shows how the District's net position changed during the fiscal years. In the case of the District, the District's net position increased 5.68%, or \$3,568,294 from the prior year's net position of \$63,129,330 to \$66,715,624, as a result of the year's operations.

ROWLAND WATER DISTRICT*Management's Discussion and Analysis (Unaudited)**For the Years Ended June 30, 2020 and 2019*

FINANCIAL ANALYSIS OF THE DISTRICT (continued)**Total Revenues**

	<u>June 30, 2020</u>	<u>June 30, 2019</u>	<u>Increase (Decrease)</u>
Operating revenues:			
Water sales	\$ 13,814,524	\$ 13,332,531	\$ 481,993
Water service charges	11,130,851	10,163,250	967,601
New service connections	695,965	99,909	596,056
Reimbursements	429,198	35,239	393,959
Other operating revenues	280,988	452,425	(171,437)
Total operating revenues	<u>26,351,526</u>	<u>24,083,354</u>	<u>2,268,172</u>
Non-operating revenues:			
Property taxes	433,680	371,014	62,666
Investment earnings	583,384	765,942	(182,558)
Rental and contract revenue	219,021	167,152	51,869
Other non-operating revenues	116,263	143,091	(26,828)
Total non-operating revenues	<u>1,352,348</u>	<u>1,447,199</u>	<u>(94,851)</u>
Total revenues	<u>\$ 27,703,874</u>	<u>\$ 25,530,553</u>	<u>\$ 2,173,321</u>

In fiscal year 2020, operating revenues increased by 9.41%, or \$2,268,172 from \$24,083,354 to \$26,351,526, from the prior year, primarily due to increases in residential and business water sales as well as increases in water service charges, new service connections and reimbursements. Also, non-operating revenues decreased by 6.55%, or \$94,851 from \$1,447,199 to \$1,352,348 due to decrease in investment earnings.

Total expenses	<u>\$ 24,117,580</u>	<u>\$ 21,802,506</u>	<u>\$ 2,338,510</u>

In fiscal year 2020, operating expenses before depreciation expense increased by 7.93% or \$1,425,467 from \$17,969,680 to \$19,395,147, from the prior year, primarily due to increases in costs for source of supply, transmission and distribution, and general and administrative expenses.

Capital Assets

	<u>Balance June 30, 2020</u>	<u>Balance June 30, 2019</u>
Capital assets:		
Non-depreciable assets	\$ 4,395,141	\$ 4,698,248
Depreciable assets	95,672,370	93,629,250
Accumulated depreciation	<u>(36,298,947)</u>	<u>(37,368,615)</u>
Total capital assets, net	<u>\$ 63,768,564</u>	<u>\$ 60,958,883</u>

At the end of year 2020, the District's investment in capital assets amounted to \$63,768,564 (net of accumulated depreciation), respectively. Capital asset additions amounted to \$5,614,900 for various projects and equipment. See Note 5 for further information.

ROWLAND WATER DISTRICT

*Management's Discussion and Analysis (Unaudited)
For the Years Ended June 30, 2020 and 2019*

FINANCIAL ANALYSIS OF THE DISTRICT (continued)

Debt Administration

The long-term debt of the District is summarized below:

Long-term debt:	Balance June 30, 2020	Balance June 30, 2019
Contract and bonds payable	<u>\$ 36,386,229</u>	<u>\$ 37,505,482</u>

Long-term debt decreased by a total of \$1,119,253 for the year ended June 30, 2020. Principal payments were \$1,000,000 and amortization of the debt premiums amounted to \$119,253. See Notes 7 and 8 for further information.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

CONDITIONS AFFECTING CURRENT AND FUTURE FINANCIAL POSITION

The District's Board of Directors and management considered many factors when setting the fiscal year 2021, user fees, and charges. A projection is made on the acre feet of water that will be purchased and sold. The District also looks at the increased cost of the Source of Supply. Since the District heavily relies on import water, the costs are directly passed through by Metropolitan Water District and Three Valleys Municipal Water District. Some are fixed costs that do not vary depending upon the amount of water sold. Other expenses are budgeted individually to account for increases in such things as vehicle expenses and insurance coverages. The District's customer base has not changed significantly; therefore, revenue and costs are more easily projected. Questions concerning the information about the economic analysis, revenue and expense assumptions, and other budgetary process parameters utilized in the annual budget preparation can be obtained from the District's Finance Officer.

Global Pandemic

At the end of the first quarter of calendar year 2020, the United States and global economy suffered a major decline due to the impact of the COVID-19 virus. This economic decline may affect the District's operations and investment earnings for the remainder of calendar year 2020 and beyond. However, the potential impact to the District is unknown at this time.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's funding sources, customers, stakeholders and other interested parties with an overview of the District's financial operations and financial condition. Should the reader have questions regarding the information included in this report or wish to request additional financial information, please contact the District's Director of Finance, 3021 S. Fullerton Rd., Rowland Heights, CA 91748 - (562) 697-1726.

ROWLAND WATER DISTRICT

Notes to Financial Statements

June 30, 2020

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

A. Description of Organization

The Rowland Water District (District) was formed by the voters on March 3, 1953 under the County Water District Law, Division 12 Water Code, State of California, to provide a safe and reliable water source to allow the community to transform a cattle raising and farming area into the large urban and industrial area it serves today. The District encompasses a 17.2 square mile area in Southeastern Los Angeles County, which services portions of Rowland Heights, La Puente, Hacienda Heights, City of Industry, and City of West Covina. The service area's population is approximately 60,000.

The criteria used in determining the scope of the financial reporting entity is based on the provisions of Governmental Accounting Standards Board Statement No. 61, The Financial Reporting Entity (GASB Statement No. 61). The District is the primary governmental unit based on the foundation of a separately elected governing board that is elected by the citizens in a general popular election. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The District is financially accountable if it appoints a voting majority of the organization's governing body and: 1) It is able to impose its will on that organization, or 2) There is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

B. Basis of Presentation, Basis of Accounting

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the District is that the costs (including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

The District's fiduciary activities related to its other post-employment benefit (OPEB) plan are accounted for in a fiduciary fund.

The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied.

The fiduciary fund financial statements are accounted for using the economic resources measurement focus and accrual basis of accounting. All assets and liabilities (whether current or noncurrent) associated with these activities are included on the statement of fiduciary net position. The statement of changes in fiduciary net position presents increases (additions) and decreases (deductions) in total fiduciary net position. Under the accrual basis of accounting, additions are reported when earned and deductions are recorded when a liability is incurred, regardless of the timing of related cash flows.

Operating revenues are those revenues that are generated from the primary operations of the District. The District reports a measure of operations by presenting the change in net position from operations as operating income in the statement of revenues, expenses, and changes in net position. Operating activities are defined by the District as all activities other than financing and investing activities (interest expense and investment income), grants and subsidies, and other infrequently occurring transactions of a non-operating nature. Operating expenses are those expenses that are essential to the primary operations of the District. All other expenses are reported as non-operating expenses.

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position

1. Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid investments with a maturity of 90 days or less, when purchased, to be cash equivalents. Cash deposits are reported at the carrying amount, which reasonably estimates fair value.

2. Investments

Investments are reported at fair value except for short-term investments, which are reported at cost, which approximates fair value. Cash deposits are reported at carrying amount, which reasonably estimates fair value. Investments in governmental investment pools are reported at fair value based on the fair value per share of the pool's underlying portfolio.

In accordance with fair value measurements, the District categorizes its assets and liabilities measured at fair value into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used in the determination of the fair value measurement fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement.

Financial assets and liabilities recorded on the balance sheet are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical investments, such as stocks, corporate and government bonds. The District has the ability to access the holding and quoted prices as of the measurement date.

Level 2 – Inputs, other than quoted prices, that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active.

Level 3 – Inputs that are unobservable. Unobservable inputs reflect the District's own assumptions about the factors market participants would use in pricing an investment, and is based on the best information available in the circumstances.

3. Restricted Assets

Amounts shown as restricted assets have been restricted by either bond indentures, external constraints, or laws and regulations of other governments.

4. Receivables and Allowance for Doubtful Accounts

Customer accounts receivable consist of amounts owed by private individuals and organizations for services rendered in the regular course of business operations. Receivables are shown net of allowances for doubtful accounts. Uncollectable accounts are based on prior experience and management's assessment of the collectability of existing accounts.

5. Prepaids

Certain payments of vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

6. Inventories and Water in Storage

Supply inventories maintained by the District consist primarily of water meters and accessories, water pipes, valves, and various fittings. Inventories are valued at cost using the first-in, first-out method. Water in storage is valued at average cost.

7. Capital Assets

Capital assets are stated at cost or at their estimated fair value at date of donation. It is the District’s policy to capitalize assets costing over \$5,000. The provision for depreciation is computed using the straight-line method over the estimated service lives of the capital assets. Estimated service lives for the District’s classes of assets are as follows:

Description	Estimated Lives
Transmission and distribution system	15-75 years
Equipment	5-10 years

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

9. Compensated Absences

The District’s personnel policies provide for accumulation of vacation and sick leave (employee benefits). Liabilities for vacation leave are recorded when benefits are earned. Full cash payment for all unused vacation leave is available to employees upon retirement or termination. Also, in accordance with the District’s policy, employees may accrue unlimited sick time. Upon attaining 352 hours, the employee may exercise a one-time option to exchange sick leave hours for cash or vacation time. Upon separation, retirement, or death, an employee shall receive, as an additional retirement benefit, an amount equal to 50% of accrued hours for unused sick leave pay for up to 352 hours or 176 hours.

10. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District’s California Public Employees’ Retirement System (CalPERS) plans and addition to/deductions from the Plans’ fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

10. Pensions (continued)

The following timeframes are used for pension reporting:

Valuation Date June 30, 2018
Measurement Date June 30, 2019
Measurement Period July 1, 2018 to June 30, 2019

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized straight-line over 5 years. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retirees) as of the beginning of the measurement period.

11. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Retiree Benefits Plan ("the Plan") and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments which are reported at cost.

The following timeframes are used for OPEB reporting:

Valuation Date June 30, 2019
Measurement Date June 30, 2019
Measurement Period July 1, 2018 to June 30, 2019

12. Net Position

Net position is classified into two components: net investment in capital assets and unrestricted. These classifications are defined as follows:

- **Net investment in capital assets** - This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.
- **Unrestricted net position** - This component of net position consists of net position that does not meet the definition of "net investment in capital assets" or "restricted".

ROWLAND WATER DISTRICT

Notes to Financial Statements

June 30, 2020

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reported period. Actual results could differ from those estimates.

E. Property Taxes

The Los Angeles County Assessor's Office assesses all real and personal property within the County each year. The Los Angeles County Tax Collector's Office bills and collects the District's share of property taxes. The Los Angeles County Auditor-Controller's Office remits current property tax collections to the District throughout the year. Property tax in California is levied in accordance with Article XIII A of the State Constitution at one percent (1%) of countywide assessed valuations. Property taxes receivable at year-end are related to property taxes collected by the Los Angeles County Tax Collector's Office, which have not been credited to the District's cash balance as of June 30.

The property tax calendar is as follows:

Lien date March 1
Levy date July 1
Due dates November 1 and March 1
Collection dates December 10 and November 10

NOTE 2 – CASH AND INVESTMENTS

Cash and investments were classified in the accompanying financial statements as follows:

<u>Description</u>	<u>June 30, 2020</u>
Cash and cash equivalents	\$ 8,904,707
Restricted – investments	4,960,433
Investments	11,337,568
Investments – fiduciary fund	4,876,910
Total cash and investments	\$ 30,079,618

Cash and investments consisted of the following:

<u>Description</u>	<u>June 30, 2020</u>
Petty cash	\$ 400
Demand deposits held with financial institutions	3,277,693
Investments	26,801,525
Total cash and investments	\$ 30,079,618

ROWLAND WATER DISTRICT

Notes to Financial Statements

June 30, 2020

NOTE 2 – CASH AND INVESTMENTS (continued)

Demand Deposits with Financial Institutions

At June 30, 2020, the carrying amount of the District's demand deposits were \$3,277,693 and the financial institution's balances were \$3,331,637. The net difference represents outstanding checks, deposits-in-transit and/or other reconciling items between the financial institution's balance and the District's balance for each year.

Custodial Credit Risk – Deposits

Custodial credit risk for *deposits* is the risk that in the event of the failure of a depository financial institution the District will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction the District will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits. The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. As of June 30, 2020, the District's deposits were covered by the Federal Deposit Insurance Corporation insurance limits or collateralized as required by California law.

Investments

The District's investments as of June 30, 2020 are presented in the following Investment Table:

Type of Investments	Measurement Input	Credit Rating	Total Fair Value	Maturity		
				12 Months or Less	13 to 24 Months	25 to 120 Months

Repurchase Agreements	30 days	None	None
Local Agency Investment Fund (LAIF)	None	None	None

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by in the Investment Table that shows the distribution of the District's investments by maturity as of June 30, 2020.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented in the Investment Table are Standard & Poor's credit ratings for the District's investments as of June 30, 2020. U.S. treasury obligations are not required to be rated and therefore no rating has been assigned.

ROWLAND WATER DISTRICT
Notes to Financial Statements
June 30, 2020

NOTE 2 – CASH AND INVESTMENTS (continued)

Concentration of Credit Risk

Investments in any one issuer that represent 5% or more of total District investments are as follows:

<u>Issuer</u>	<u>Amount</u>
U.S. government sponsored agency securities:	
Federal National Mortgage Association	\$ 2,459,823
Federal Home Loan Mortgage Corporation	1,511,202
Federal Home Loan Bank	2,333,462

Fair Value Measurements

The District categorizes its fair value measurement within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are quoted prices for similar assets in active markets, and Level 3 inputs are significant unobservable inputs. All of the District’s investments were assigned a Level 2 input on the Investment Table.

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the District’s investment in this pool is reported in the accompanying financial statements at amounts based upon the District’s pro rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Investments - Other Post-Employment Benefit (OPEB) Trust

The District established a trust account with Public Agency Retirement Services (PARS) to hold assets that are legally restricted for use in administering the District’s other post-employment benefit (OPEB) health plan. The OPEB trust’s specific cash and investments are managed by a third-party portfolio manager and invested under a pool arrangement using certain investment guidelines offered by PARS and approved by the District.

Those investment guidelines approved by the District are as follows:

<u>Description</u>	<u>Type</u>
Risk Tolerance	Moderate
Time Horizon	Long-term
Income or Liquidity Needs	As requested
Account of Trust Restrictions	None
Unique Needs and Circumstances	None
Investment Objective	Moderate index plus
Strategic Ranges:	0% - 20% Cash
	40% - 60% Fixed Income
	40% - 60% Equity

NOTE 2 – CASH AND INVESTMENTS (continued)

Acceptable Investments

Authorized Investment Type	
Equity securities	Fixed income mutual funds
Equity mutual funds	Closed end funds
Exchange traded funds (ETFs)	Cash and cash equivalents
Fixed income securities	

Fixed Income Guidelines

The fixed income guidelines consist of (a) the long-term fixed income investments (greater than seven years in maturity) shall constitute no more than 20%, and as little as 0% of the total Plan assets, (b) the intermediate-term fixed income investments (between three and seven years in maturity) shall constitute no more than 60%, nor less than 20% of the total Plan assets, (c) the high-yield portion of the Plan shall constitute no more than 10%, and as little as 0% of the total Plan assets, (d) the convertible bond exposure shall constitute no more than 10%, and as little as 0% of the total Plan assets, and (e) the short-term fixed income investments (between one and three years in maturity) shall constitute no more than 20%, and as little as 0% of the total Plan assets.

Equity Guidelines

The equity guidelines consist of (a) the domestic large capitalization equity investments of the Plan shall constitute no more than 50%, nor less than 20% of the total Plan assets, (b) the domestic mid-capitalization equity investments of the Plan shall constitute no more than 20%, and as little as 0% of the total Plan assets, (c) the domestic small capitalization equity investments of the Plan shall constitute no more than 20%, nor less than 0% of the total Plan assets, (d) the international equity investments of the Plan shall constitute no more than 20%, and as little as 0% of the total Plan assets, and (e) the real estate investments of the Plan shall constitute no more than 10%, and as little as 0% of the total Plan assets.

NOTE 3 – ACCOUNTS RECEIVABLE, NET

The balance at June 30, 2020 consists of the following;

NOTE 4 – INVESTMENTS IN JOINT-VENTURES

The balance at June 30, 2020 consists of the following;

<u>Investments in Joint-Ventures</u>	<u>June 30, 2020</u>
Puente Basin Water Agency	\$ 16,980,625
Pomona-Walnut-Rowland Joint Water Line	900,401
Total investments in joint-ventures	<u><u>\$ 17,881,026</u></u>

Puente Basin Water Agency

The Puente Basin Water Agency (the Agency) was created in 1971 by the execution of a Joint Powers Agreement (the Agreement) between the Rowland Water District and the Walnut Valley Water District. The Agreement was made pursuant to Article 1, Chapter 5, Division 7, Title 1 of the California Government Code. The Agency was organized for the purpose of protection and utilization of the local, imported, and reclaimed water supply within the Puente Basin. The Agency is governed by a four-member-appointed Board of Commissioners. Each District appoints two members to this board.

Upon dissolution of the Agency, the assets in the possession of the Agency shall be distributed to the members as their interest may appear on the books of the Agency and pursuant to the provisions of Section 6512 of the California Government Code. Complete financial statements for the Agency can be obtained by written request at 271 South Brea Canyon Road, Walnut, California.

The changes in its investment in Puente Basin Water Agency consist of the following as of June 30, 2020:

<u>Description</u>	<u>June 30, 2020</u>
Balance – beginning of year	\$ 16,642,575
Contributions	231,752
Share of net income	<u>106,298</u>
Balance – end of year	<u><u>\$ 16,980,625</u></u>

The following is condensed financial information of the investment in Puente Basin Water Agency as of and for the year ended June 30, 2020, including the participants’ approximate percentage shares:

<u>Description</u>	<u>June 30, 2020</u>	<u>District Share</u> <u>50%</u>
Total assets	<u>\$ 72,148,224</u>	
Total liabilities	\$ 38,186,974	
Total net position	<u>33,961,250</u>	<u>\$ 16,980,625</u>

NOTE 4 – INVESTMENTS IN JOINT-VENTURES (continued)

Pomona-Walnut-Rowland Joint Water Line Commission

The District is a member of the Pomona-Walnut-Rowland Joint Water Line Commission (Commission). The Commission was formed under the Joint Powers Agreement (the JPA) of 1956 between the City of Pomona, the Walnut Valley Water District (WVWD), and the Rowland Water District (RWD). The JPA's purpose is to acquire, construct, maintain, repair, manage, and operate a water transmission pipeline for the benefit of the members' water supplies. The Commission is governed by a three-member board composed of one appointee from each member agency. Each year, every member agency is charged an assessment for their share of the general and administrative costs of the Commission, which is allocated to each agency on a one-third basis. A budget assessment is collected each fiscal year and each agency pays one-third of the amount of the assessment as well as a capital surcharge for the future replacement of the pipeline. For the year ended June 30, 2020, the District remitted assessments totaling \$48,624 for their share of general and administrative costs and future replacement costs. Upon dissolution of the Commission, the net position will be divided in proportion to the contribution each agency made to the maintenance and operation account during the last prior 12-month period. The District, consequently, has an ongoing financial responsibility in the activities of the Commission. However, the JPA does not explicitly require the measurement of the District's equity interest in the Commission. Complete financial statements for the Commission can be obtained by written request at P.O. Box 508, Walnut, California.

The changes in its investment in the Commission consisted of the following as of June 30, 2020:

<u>Description</u>	<u>June 30, 2020</u>
Balance – beginning of year	\$ 884,958
Share of net income	<u>15,443</u>
Balance – end of year	<u>\$ 900,401</u>

The following is condensed financial information of the investment in Pomona-Walnut-Rowland Joint Water Line Commission as of and for the year ended June 30, 2020, including the participants' approximate percentage shares:

NOTE 7 – CONTRACT PAYABLE

On November 1, 2012, the Puente Basin Water Agency issued \$19,835,000 in Water Revenue Bonds, 2012 Series A in order to finance the acquisition of certain water system improvements of the District. Proceeds of the bonds, including \$1,570,182 of bond premium, were loaned to the District pursuant to an installment purchase contract entered into concurrently with the bonds' issuance.

The bond premium is being amortized and recognized as interest expense over the life of the debt on a straight-line basis. The installment purchase contract payments mirror the debt service payments on the Water Revenue Bonds, 2012 Series A. Interest is payable semiannually on December 1 and June 1 at rates ranging from 2.00% to 5.00%.

Unspent proceeds from the bonds plus investments earnings on those proceeds total \$4,960,433 and are held on the balance sheet as a restricted investment.

The District's obligation to make installment payments is a special obligation of the District payable solely from the net revenues of the District. The following is a summary of the installment purchase contract for the year ended June 30, 2020:

Description	Balance	Additions	Deductions	Balance	Current Portion	Long-term Portion
	July 1, 2019			June 30, 2020		
2012 Series A Water Revenue Bonds	\$ 17,395,000	\$ -	\$ (460,000)	\$ 16,935,000	\$ 475,000	\$ 16,460,000
2012 Series A Water Revenue Bonds – Premium	1,234,198	-	(52,339)	1,181,859	-	1,181,859
	<u>\$ 18,629,198</u>	<u>\$ -</u>	<u>\$ (512,339)</u>	<u>\$ 18,116,859</u>	<u>\$ 475,000</u>	<u>\$ 17,641,859</u>

Maturities of the installment purchase contract and interest payments subsequent to June 30, 2020, are as follows:

Fiscal Year	Principal	Interest	Total
2021	\$ 475,000	\$ 676,000	\$ 1,151,000
2022	495,000	656,600	1,151,600
2023	515,000	636,400	1,151,400
2024	540,000	615,300	1,155,300
2025	560,000	593,300	1,153,300

NOTE 8 – BONDS PAYABLE

Water Revenue Refunding Bonds, Series 2014A were issued on September 18, 2014, in the amount of \$20,060,000 to refund \$19,105,000 of outstanding balance on the 2008 Certificates of Participation. The prior obligations were issued to finance certain improvements.

The bonds were issued at a premium of \$1,686,785, which is being amortized over the life of the debt on a straight-line basis.

These bonds mature in various amounts through December 1, 2039. Interest is payable semiannually on December 1 and June 1 at rates ranging from 2.00% to 5.00%. The installment payments on these bonds are secured by a first priority lien on the net revenues of the District. The following is a summary of the changes in Water Revenue Refunding Bonds, Series 2014A for the year ended June 30, 2019:

Description	Balance			Balance June 30, 2020	Current Portion	Long-term Portion
	July 1, 2019	Additions	Deductions			
2014A Series Water Revenue Refunding Bonds	\$ 17,495,000	\$ -	\$ (540,000)	\$ 16,955,000	\$ 560,000	\$ 16,395,000

NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Summary

The following balances on the balance sheet will be addressed in this footnote as follows:

<u>Description</u>	<u>2020</u>
OPEB related deferred outflows	\$ 650,191
Net other post-employment benefits obligation	2,098,483
OPEB related deferred inflows	1,367,233

A. General Information about the OPEB Plan

Plan Description

The District has an agent multiple-employer other post-employment benefit plan that provides medical, dental, and vision coverage to 27 active employees, 10 retired employees, and 7 covered dependents of retirees through the ACWA health program as of the measurement date, June 30, 2019. At retirement, the District provides a contribution for the continuation of these coverage's for eligible retirees. Eligibility for a District contribution requires retirement from the District and under CalPERS on or after age 50 with at least 15 years of continuous service. The District provides 100% of the cost of coverage for the retiree and any covered spouse. Employees hired on or after July 1, 2012, are eligible for a District contribution if retiring from the District and under CalPERS on or after age 62 with at least 15 years of continuous District service. The District provides 100% of the cost of coverage for the retiree only and covered spouse.

An employee may also be eligible for retiree medical, dental, and vision benefits if, at the time of retirement from the District, the employee has at least twenty-five (25) years of service in the water utility industry, has been employed by the District for a minimum continuous period of five (5) years, and has attained a minimum age of fifty (50) years. For purposes of this benefit, "retirement from the District" means the employee's effective retirement date is within 120 days of separation from employment with the District and the employee receive either a service or disability retirement allowance from CalPERS resulting from his or her service to the District.

Funding Policy

The contribution requirements of plan members and the District are established and may be amended by the District and/or the District's Board of Directors. Currently, contributions are not required from plan members. The District has been typically funding this OPEB plan on a pay-as-you-go basis; however, recently contributions have been made to an OPEB Trust.

Contributions

Benefit provisions and contribution requirements are established and may be amended through agreements and memorandums of understanding between the District and its employees. The plan does not require employee contributions. Administrative costs of this plan are financed by the District. For fiscal year ended June 30, 2019, the measurement period, the District's contributions totaling \$605,776 included \$420,000 placed in its PARS OPEB Trust, \$166,692 in current year premium payments, and an implied subsidy of \$19,084.

ROWLAND WATER DISTRICT
Notes to Financial Statements
June 30, 2020

NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (OPEB)

A. General Information about the OPEB Plan (continued)

Accounting for the Plan

The other post-employment benefit trust is prepared using the accrual basis of accounting. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide contributions. Benefits are recognized when due and payable in accordance with the terms of each plan.

Method Used to Value Investments

Investments are reported in the accompanying financial statements at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measure date. Securities for which market quotations are not readily available are valued at their fair value as determined by the custodian with the assistance of a valuation service.

B. Net OPEB Liability

The District's total OPEB liability was measured as of June 30, 2019 and was determined by an actuarial valuation as of June 30, 2019. A summary of the principal assumptions and methods used to determine the total OPEB liability is shown below.

Actuarial Assumptions

The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation Date	June 30, 2019
Measurement Date	June 30, 2019
Actuarial Cost Method	Entry age normal, level percentage of payroll
Asset Valuation Method	Market value of assets as of the measurement date
Actuarial Assumptions:	
Discount Rate	
Long-Term Expected	
Rate of Return on Investments	6.50%
Inflation	2.26%
Payroll increases	3.25%
Healthcare Trend Rates	Pre-65 - 8.00% trending down 0.25% annually to 5.0% by 2031 and later Post-65 - 5.50% trending down 0.25% annually to 5.0% by 2021 and later
Morbidity	CalPERS 2013 Study
Mortality	CalPERS 2014 Study
Disability	Not valued
Retirement	2014 CalPERS Public Agency Miscellaneous experience study; 2.5% @55 and 2% @62
Percent Married	80% of future retirees would enroll a spouse

ROWLAND WATER DISTRICT
Notes to Financial Statements
June 30, 2020

NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (continued)

B. Net OPEB Liability (continued)

Actuarial Assumptions (continued)

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of the arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
PARS moderate investment policy:		
Equity	48.25%	5.65%
Fixed income	45.00%	1.39%
REITs	1.75%	5.06%
Cash	5.00%	0.00%
Total	100.00%	

Discount Rate

The discount rate used to measure the total OPEB liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that the City's contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

C. Changes in the Net OPEB Liability

The changes in the total OPEB liability are as follows:

	Increase (Decrease)		
	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
Balance at July 1, 2019 (Measurement date July 1, 2018)	\$ 6,539,557	\$ 3,605,916	\$ 2,933,641
Changes for the year:			
Service cost	124,022	-	124,022
Interest	427,189	-	427,189
Differences in experience	(253,977)	-	(253,977)
Changes in assumption	(262,190)	-	(262,190)
Employer contributions	-	605,776	(605,776)
Net investment income	-	264,426	(264,426)
Benefit payments	(185,776)	(185,776)	-
Net changes	(150,732)	684,426	(835,158)
Balance at June 30, 2020 (Measurement date June 30, 2019)	\$ 6,388,825	\$ 4,290,342	\$ 2,098,483

ROWLAND WATER DISTRICT
Notes to Financial Statements
 June 30, 2020

NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (continued)

C. Changes in the Net OPEB Liability (continued)

Changes of Assumptions

In fiscal year 2018-19, the census data from the plans participants was updated, which decreased the total OPEB liability by \$262,190.

Change of Benefit Terms

In fiscal year 2018-19, the measurement period, there were no changes to the actuarial assumptions.

Subsequent Events

There were no subsequent events that would materially affect the results presented in this disclosure.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (5.50%) or 1 percentage point higher (7.50%) than the current discount rate:

	1% Decrease	Discount Rate	1% Increase
	5.5%	6.5%	7.5%
Net OPEB Liability	<u>\$ 3,202,400</u>	<u>\$ 2,098,483</u>	<u>\$ 1,216,975</u>

Sensitivity of the Total OPEB Liability to Changes in Medical Trend Rates

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using medical trend rates that are 1-percentage point lower:

	Healthcare Cost		
	7.0% Decreasing	8.0% Decreasing	9.0% Decreasing
	to 4.0%	to 5.0%	to 6.0%
Net OPEB Liability	<u>\$ 1,127,754</u>	<u>\$ 2,098,483</u>	<u>\$ 3,348,669</u>

D. OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the District recognized OPEB expense of \$104,309. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

<u>Account Description</u>	<u>Deferred Outflows</u>	<u>Deferred Inflows</u>
	<u>of Resources</u>	<u>of Resources</u>

NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (continued)

D. OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB (continued)

The differences between projected and actual earnings on plan investments is amortized over five years. The District reported \$641,224 as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

<u>Amortization Period</u> <u>Fiscal Year Ended June 30</u>	<u>Deferred</u> <u>Outflows/(Inflows)</u> <u>of Resources</u>
2021	\$ (199,082)
2022	(199,083)
2023	(179,504)
2024	(180,255)
2025	(176,933)
Thereafter	<u>(423,409)</u>
Total	<u>\$ (1,358,266)</u>

At June 30, 2020, the District had no outstanding amount of contributions to the OPEB plan required for the year ended June 30, 2020.

NOTE 10 – PENSION PLAN

Summary

The following balances on the balance sheet will be addressed in this footnote as follows:

<u>Description</u>	<u>2020</u>
Pension related deferred outflows	\$ 1,263,986
Net pension liability	4,950,633
Pension related deferred inflows	375,108

Qualified employees are covered under a multiple-employer defined benefit pension plan maintained by agencies of the State of California known as the California Public Employees' Retirement System (CalPERS), or "The Plan".

ROWLAND WATER DISTRICT
Notes to Financial Statements
June 30, 2020

NOTE 10 – PENSION PLAN (continued)

A. General Information about the Pension Plan

The Plan

The District has engaged with CalPERS to administer the following pension plans for its employees (members):

	Miscellaneous Plans	
	Classic Tier 1	PEPRA Tier 2
Hire date	Prior to January 1, 2013	On or after January 1, 2013
Benefit formula	2.5% @ 55	2.0% @ 62
Benefit vesting schedule	5-years of service	5-years of service
Benefits payments	monthly for life	monthly for life
Retirement age	50 - 67 & up	52 - 67 & up
Monthly benefits, as a % of eligible compensation	2.0% to 2.7%	1.0% to 2.0%
Required member contribution rates	8.000%	6.250%
Required employer contribution rates – FY 2019	10.609%	6.842%

Plan Description

The District contributes to the California Public Employees’ Retirement System (CalPERS), a cost-sharing multiple-employer defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. A full description of the pension plan, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the June 30, 2019 Annual Actuarial Valuation Reports. This report and CalPERS’ audited financial statements are publicly available reports that can be obtained at CalPERS’ website under Forms and Publications.

At June 30, 2019 measurement date, the following members were covered by the benefit terms:

Plan Members	Miscellaneous Plans		Total
	Classic Tier 1	PEPRA Tier 2	
Active members	18	5	23
Transferred and terminated members	15	4	19
Retired members and beneficiaries	17	-	17
Total plan members	50	9	59

All qualified permanent and probationary employees are eligible to participate in the District’s cost-sharing multiple-employer defined benefit pension plans administered by the California Public Employees’ Retirement System (CalPERS). Benefit provisions under the Plans are established by state statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS website.

ROWLAND WATER DISTRICT
Notes to Financial Statements
June 30, 2020

NOTE 10 – PENSION PLAN (continued)

A. General Information about the Pension Plan (continued)

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to Plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for nonindustrial disability benefits after five years of service. The death benefit is one of the following the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each Plan are applied as specified by the Public Employees’ Retirement Law.

Contributions

Section 20814(c) of the California Public Employees’ Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

Contributions for the year ended June 30, 2020, were as follows:

Contribution Type	Miscellaneous Plans		Total
	Classic	PEPRA	
	Tier 1	Tier 2	
Contributions – employer	\$ 533,699	\$ 36,861	\$ 570,560

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

Proportionate Share of Net Pension Liability and Pension Expense

The District’s net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2019, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018, rolled forward to June 30, 2019, using standard update procedures. The District’s proportionate share of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

The following table shows the District’s proportionate share of the risk pool collective net pension liability over the measurement period for the Miscellaneous Plan for the fiscal year ended June 30, 2020:

	Percentage Share of Risk Pool		Change Increase/ (Decrease)
	Fiscal Year	Fiscal Year	
	Ending June 30, 2020	Ending June 30, 2019	
Measurement Date	June 30, 2019	June 30, 2018	
Percentage of Risk Pool Net Pension Liability	0.123627%	0.120126%	0.003501%
Percentage of Plan Net Pension Liability	0.048313%	0.046981%	0.001332%

ROWLAND WATER DISTRICT
Notes to Financial Statements

NOTE 10 – PENSION PLAN (continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

Proportionate Share of Net Pension Liability and Pension Expense (continued)

The District's proportionate share percentage of the net pension liability for the June 30, 2019, measurement date was as follows:

<u>Plan Type and Balance Descriptions</u>	<u>Plan Total Pension Liability</u>	<u>Plan Fiduciary Net Position</u>	<u>Change in Plan Net Pension Liability</u>
CalPERS – Miscellaneous Plan:			
Balance as of June 30, 2018 (Measurement Date)	\$ 18,708,641	\$ 14,181,421	\$ 4,527,220
Balance as of June 30, 2019 (Measurement Date)	\$ 19,564,998	\$ 14,614,365	\$ 4,950,633
Change in Plan Net Pension Liability	\$ 856,357	\$ 432,944	\$ 423,413

For the year ended June 30, 2019, the District recognized pension expense of \$1,003,460. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Account Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Pension contributions made after the measurement date	\$ 570,560	\$ -
Difference between actual and proportionate share of employer contributions	-	(178,230)
Adjustment due to differences in proportions	113,514	-
Differences between expected and actual experience	343,843	(26,641)
Differences between projected and actual earnings on pension plan investments	-	(86,552)
Changes in assumptions	236,069	(83,685)
Total Deferred Outflows/(Inflows) of Resources	\$ 1,263,986	\$ (375,108)

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, changes of assumptions, and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 3.8 years.

ROWLAND WATER DISTRICT
Notes to Financial Statements
June 30, 2020

NOTE 10 – PENSION PLAN (continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

Proportionate Share of Net Pension Liability and Pension Expense (continued)

An amount of \$570,560 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as a reduction to pension expense as follows:

<u>Amortization Period</u> <u>Fiscal Year Ended June 30</u>	<u>Deferred</u> <u>Outflows/(Inflows)</u> <u>of Resources</u>
2021	\$ 322,585
2022	(61,347)
2023	39,590
2024	17,490
Total	\$ 318,318

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ending June 30, 2019 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2017, total pension liability. The June 30, 2019, total pension liability and the June 30, 2017, total pension liability were based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal in accordance with the requirement of GASB Statement No. 68
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Salary Increases	Varies by Entry Age and Service
Mortality Rate Table	Derived using CalPERS' Membership Data for all Funds.
Post Retirement Benefit Increase	Contract COLA up to 2.50% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.50% thereafter

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund.

ROWLAND WATER DISTRICT
Notes to Financial Statements
 June 30, 2020

NOTE 10 – PENSION PLAN (continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

Long-term Expected Rate of Return (continued)

The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects long-term expected real rate of return by asset class.

Investment Type	New Strategic Allocation	Real Return Years 1 - 10 ¹	Real Return Years 11+ ²
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Estate	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	-0.92%
	100.0%		

¹ An expected inflation of 2.0% is used for years 1-10.

² An expected inflation of 2.9% is used for years 11+.

Discount Rate

The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Subsequent Events

There were no subsequent events that would materially affect the results in this disclosure.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability/(asset) of the Plan as of the measurement date, calculated using the discount rate of 7.15%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15%) or 1 percentage-point higher (8.15%) than the current rate:

Plan Type	Plan's Net Pension Liability/(Asset)		
	Discount Rate - 1% 6.15%	Current Discount Rate 7.15%	Discount Rate + 1% 8.15%
	CalPERS – Miscellaneous Plan	7,582,185	\$ 4,950,633

NOTE 10 – PENSION PLAN (continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan’s fiduciary net position is available in the separately issued CalPERS financial report and can be obtained from CalPERS’ website under Forms and Publications.

C. Payable to the Pension Plans

At June 30, 2020, the District reported no payables for outstanding contributions to the CalPERS pension plan required for the year ended June 30, 2020.

NOTE 11 – NET INVESTMENT IN CAPITAL ASSETS

Net investment in capital assets consisted of the following as of June 30:

<u>Description</u>	<u>June 30, 2020</u>
Net investment in capital assets:	
Restricted – investments	\$ 4,960,433
Capital assets – not being depreciated	4,395,141
Capital assets, net – being depreciated	59,373,423
Contract payable – current portion	(475,000)
Bonds payable – current portion	(560,000)
Contract payable – non-current portion	(17,641,859)
Bonds payable – non-current portion	<u>(17,709,370)</u>
Total net investment in capital assets	<u>\$ 32,342,768</u>

NOTE 12 – DEFERRED COMPENSATION SAVINGS PLAN

For the benefit of its employees, the District participates in two 457 Deferred Compensation Programs (Programs). The purpose of these Programs is to provide deferred compensation for public employees that elect to participate in the Programs. Generally, eligible employees may defer receipt of a portion of their salary until termination, retirement, death, or unforeseeable emergency. Until the funds are paid or otherwise made available to the employee, the employee is not obligated to report the deferred salary for income tax purposes.

Federal law requires deferred compensation assets to be held in trust for the exclusive benefit of the participants. Accordingly, the District is in compliance with this legislation. Therefore, these assets are not the legal property of the District, and are not subject to claims of the District’s general creditors.

The District has implemented GASB Statement No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*. Since the District has little administrative involvement and does not perform the investing function for this plan, the assets and related liabilities are not shown on the accompanying financial statements.

NOTE 13 – RISK MANAGEMENT POOL

The District is a member of the Association of California Water Agencies Joint Powers Insurance Authority (Insurance Authority). The Insurance Authority is a risk-pooling self-insurance authority, created under provisions of California Government Code Sections 6500 et seq. The purpose of the Insurance Authority is to arrange and administer programs of insurance for the pooling of self-insured losses and to purchase excess insurance coverage. Further information about the Insurance Authority is as follows:

A. Entity	ACWA-JPIA	
B. Purpose	To pool member contributions and realize the advantages of self-insurance	
C. Participants	As of June 30, 2019 – 384 member districts	
D. Governing board	Nine representatives employed by members	
E. Condensed financial information	September 30, 2019	
Audit signed	May 14, 2020	
Statement of financial position:		Sept 30, 2019
Total assets		<u>\$ 212,099,851</u>
Deferred outflows		<u>553,790</u>
Total liabilities		<u>112,046,920</u>
Deferred inflows		<u>1,672,219</u>
Net position		<u><u>\$ 98,934,502</u></u>
Statement of revenues, expenses and changes in net position:		
Total revenues		\$ 181,825,144
Total expenses		<u>(169,356,246)</u>
Change in net position		12,468,898
Beginning – net position		<u>86,465,604</u>
Ending – net position		<u><u>\$ 98,934,502</u></u>
F. Member agencies share of year-end financial position		Not Calculated

The District participated in the self-insurance programs of the Insurance Authority as follows:

Property Loss - The Insurance Authority has pooled self-insurance up to \$100,000 per occurrence and has purchased excess insurance coverage up to \$500,000,000 (total insurable value of \$48,405,017). The District has a \$2,500 deductible for buildings, personal property and fixed equipment, a \$25,000/\$50,000 deductible for accidental mechanical breakdown, a \$1,000 deductible for mobile equipment, and a \$500 deductible for licensed vehicles.

General Liability - The Insurance Authority has pooled self-insurance up to \$5,000,000 per occurrence and has purchased excess insurance coverage in layers up to of \$60,000,000. This program does not have a deductible.

Auto Liability - The Insurance Authority has pooled self-insurance up to \$5,000,000 per occurrence and has purchased excess insurance coverage in layers up to \$60,000,000. This program does not have a deductible.
 Public Officials' Liability - The Insurance Authority has pooled self-insurance up to \$5,000,000 per occurrence and has purchased excess insurance coverage in layers up to \$60,000,000.

ROWLAND WATER DISTRICT

Notes to Financial Statements

June 30, 2020

NOTE 13 – RISK MANAGEMENT POOL (continued)

Cyber Liability - The Insurance Authority has purchased insurance coverage of \$3,000,000 per occurrence/\$5,000,000 aggregate. This program does not have a deductible.

Crime - The Insurance Authority has pooled self-insurance up to \$100,000 per occurrence. The District has a \$1,000 deductible.

Public Official Bond - The District has purchased a \$200,000 bond to cover the general manager's faithful performance of duty.

Workers' Compensation - The Insurance Authority is self-insured up to \$2,000,000 and excess insurance coverage has been purchased up to the statutory limit for workers' compensation coverage. The Insurance Authority is self-insurance up to \$2,000,000 and has purchased excess insurance coverage of \$2,000,000 for employer's liability coverage.

Underground Storage Tank Pollution Liability - The Insurance Authority is self-insured up to \$500,000 per occurrence and has purchased excess coverage of \$3,000,000. The District has a \$10,000 deductible.

The District pays annual premiums for these coverages. They are subject to retrospective adjustments based on claims expended. The nature and amount of these adjustments cannot be estimated and are charged to expenses as invoiced. There were no instances in the past three years where a settlement exceeded the District's coverage.

Settled claims have not exceeded any of the coverage amounts in any of the last three fiscal years and there were no reductions in the District's insurance coverage during the years ending June 30, 2020, 2019, and 2018. Liabilities are recorded when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated net of the respective insurance coverage. Liabilities include an amount for claims that have been incurred but not reported (IBNR). There were no IBNR claims payable as of June 30, 2020, 2019, and 2018.

NOTE 14 – COMMITMENTS AND CONTINGENCIES

Water Production Delivery Agreement

The District is party to a water production and delivery agreement dated May 12, 2012, with the La Habra Heights County Water District (La Habra Heights) for the purpose of assisting the District to access water rights in the Central Groundwater Basin of Los Angeles County (Central Basin). The District has acquired pumping rights in the Central Basin but has no facilities to produce water from Central Basin. La Habra Heights has facilities to produce water from the Central Basin and is able to assist the District to produce water, pursuant to the District's water rights, and deliver the water to the District's water distribution system.

Subject to certain limitations as specified in the agreement, La Habra Heights will convey to the District groundwater from the Central Basin. La Habra Heights will bill the District on a monthly basis for water delivery costs. The District will pay La Habra Heights for transporting water, La Habra Heights' direct cost of production, energy costs associated with the delivery of the water to the delivery point, and any other variable cost of production. The District will pay a wheeling charge that is \$50 per acre-foot until the District has amortized its capital costs. After the District has fully amortized its capital cost, the wheeling charge is \$75 per acre-foot. In addition, La Habra Heights will share the cost savings that the District realizes as a result of La Habra Heights pumping and delivering water to the District from the Central Basin instead of the District purchasing water from other sources. This agreement is currently in dispute.

ROWLAND WATER DISTRICT

Notes to Financial Statements

June 30, 2020

NOTE 14 – COMMITMENTS AND CONTINGENCIES (continued)

Litigation

In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

NOTE 15 – CURRENT AND SUBSEQUENT EVENTS

Global Pandemic

At the end of the first quarter of calendar year 2020, the United States and global economy suffered a major decline due to the impact of the COVID-19 virus. This economic decline may affect the District's operations and investment earnings for the remainder of calendar year 2020 and beyond. However, the potential impact to the District is unknown at this time.

Notes to Schedule:

Benefit Changes:

There were no changes in benefits.

Changes in Assumptions:

From fiscal year June 30, 2015 and June 30, 2016:

GASB 68, paragraph 68 states that the long-term expected rate of return should be determined net of pension plan investment expense but without reduction for pension plan administrative expense. The discount rate of 7.50% used for the June 30, 2014, measurement date was net of administrative expenses. The discount rate of 7.65% used for the June 30, 2015, measurement date is without reduction of pension plan administrative expense.

From fiscal year June 30, 2016 to June 30, 2017:

There were no changes in assumptions.

From fiscal year June 30, 2017 to June 30, 2018:

The discount rate was reduced from 7.65% to 7.15%.

From fiscal year June 30, 2018 to June 30, 2019:

There were no significant changes in assumptions.

From fiscal year June 30, 2019 to June 30, 2020:

There were no significant changes in assumptions.

*Fiscal year 2014 was the first measurement date year of implementation; therefore, only six years are shown.

Other Independent Auditors' Reports

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors
Rowland Water District
Rowland Heights, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Rowland Water District (District), which comprise the balance sheet as of June 30, 2020, and the related statement of revenues, expenses and changes in net position and cash flows for the fiscal year then ended, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 26, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
