

# WATER SUPPLY SHORTAGE LEVEL 2

**Water use reduction goal during a Level 2 Water Supply Shortage is 20%**

In accordance with the State's Executive Order N-7-22 requiring water districts to implement a Level 2, the Rowland Water District Board of Directors recently declared a Level 2 Water Supply Shortage. We ask you, our customers, to help us conserve and monitor water-wasting behaviors.

*\*To ensure the district can fulfill this requirement and continue meeting our customers' water needs, RWD has implemented Level 2 drought rates. The drought rates will replace current Potable Water Commodity Charge.*
